

March 23, 2020

Many cities and states have ordered non-essential businesses to close in an effort to contain the COVID-19 virus. Because of this situation, we are experiencing a higher than normal level of undeliverable shipments. We are asking that you please reach out to our customer service team to make any necessary address change(s).

Refused and returned packages by FedEx, UPS and all other national carriers result in additional fees to the actual shipper, whether it be Jornik, your client, or you. Please be advised that if Jornik incurs these additional charges, they will be passed on.

Thank you for continued support during this very difficult and uncertain time.
